VIJAYALAKSHMI V

Chennai, India | 8667656650 | vijivijayalalakshmi123@gmail.com | linkedin.com/in/vijaya-lakshmi-401552386

OBJECTIVE

Generative AI Engineer with a BCA background and hands-on experience building LLM-powered applications using Python, Retrieval-Augmented Generation (RAG), prompt engineering, LangFlow, REST APIs, and MongoDB. Skilled in document processing, text chunking, vector embeddings, semantic search, and LLM evaluation. Delivered a RAG-based Question Answering System and an LLM-based Resume Assistant, with a focus on accurate, reliable, and production-ready AI workflows.

TECHNICAL SKILLS

Programming: Python

Generative AI & LLMs: Large Language Models (LLMs), LLM Architectures, Prompt Engineering, Retrieval-Augmented Generation (RAG), Vector Embeddings, Semantic Search

Tools & Technologies: LangFlow, REST APIs, MongoDB, DeepEval

Professional Skills: Communication, Problem Solving, Cross-functional Collaboration

EXPERIENCE

Generative AI Developer Intern Sep 2026 – Dec 2026

Testleaf Software Solutions Pvt. Ltd. | Chennai, India

- Built and shipped 2 production LLM applications, a Resume Screening Assistant and an Intelligent PDF Q&A System, using Python, RAG, and prompt engineering, reducing manual document review effort by 40%.
- Designed end-to-end AI workflows covering document ingestion, chunking, vector embeddings, and semantic retrieval, achieving ~90% relevant-result retrieval accuracy on internal test queries.
- Integrated REST APIs, LangFlow, and MongoDB to automate AI pipelines, cutting manual pipeline configuration time by 30% and enabling reuse across 2+ projects.
- Collaborated with a 6-member engineering team to deliver features on sprint deadlines; used DeepEval to benchmark and validate LLM output quality, reducing post-release defects by 20%.

PROJECTS

QA Bot – RAG-Based Question Answering System Testleaf Software Solutions

Python, RAG, LLM, Embeddings, LangFlow

- Developed a question-answering chatbot using the Retrieval-Augmented Generation (RAG) approach.
- Contributed to document processing, text splitting, embedding generation, and document retrieval.
- Used retrieved context to generate relevant and accurate LLM responses.
- Refined prompt design and troubleshot issues to improve response quality.
- Built and tested the end-to-end AI workflow in LangFlow.

Resume Assistant – LLM-Based Resume Analysis Testleaf Software Solutions

Python, LLM, Prompt Engineering, LangFlow

- Developed an LLM-based assistant that analyses resume content and provides actionable improvement suggestions.
- Applied prompt engineering to guide the LLM toward relevant, high-quality feedback.
- Designed an AI workflow to process resume information and generate responses.
- Iteratively tested and improved prompts based on output quality.

EDUCATION

Bachelor of Computer Applications (BCA) 2023 – 2026

Shanmuga Industries Arts and Science College, Tiruvannamalai.

Higher Secondary Education 2021 – 2023

Govt Higher Secondary School
